

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	30 June 2026
Roll Number	23A51A4298
Project Name	Leave Approval System
Maximum Marks	4 Marks

Functional Requirements

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Leave Application	Employee can apply for leave by selecting leave type, start date, and end date.
FR-2	Validation	System prevents end date from being earlier than start date.
FR-3	Manager Approval	Flow Designer sends leave request to manager for approval or rejection. System sends approval or rejection notifications to employee.
FR-4	Notifications	Approved or rejected leave requests are stored and viewable in employee dashboard.
FR-5	Leave Records	Administrator can view summary reports of leave requests and approvals.
FR-6	Reporting	

Non-Functional Requirements

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Interface should be simple and intuitive for employees and managers to use.
NFR-2	Security	Only authenticated users can access leave data; approvals are role-based.
NFR-3	Reliability	System should ensure consistent workflow execution and accurate notifications.
NFR-4	Performance	Leave requests and approvals should process within 2 seconds of submission.

FR No.	Non-Functional Requirement	Description
NFR-5	Availability	Application should be accessible 24/7 with minimal downtime.
NFR-6	Scalability	System should support increasing number of employees and managers without performance degradation.
